Allow using D(yyyymmdd hh:mm) to hardcode dates in Plugin Convene through direct wiki page edition

Regarding this type of syntax to set date and times, you can see:
http://profiles.tiki.org/Date+Conversion

I tried using this code below, which is the code that I would expect to work, looking at the other syntax with unix timestamps, but it didn't work here:
See also a related issue reported with Plugin Convene:

- "Site timezone is not respected when using Plugin Convene (time stored as 2 hours before my selection)"
  [http://dev.tiki.org/item5425](http://dev.tiki.org/item5425)
  which might be a duplicate of:
- "Timezone and convene plugin"
  [http://dev.tiki.org/item4783](http://dev.tiki.org/item4783)
