### Rating

★★★★★ (0) ?

### Description

When sorting by category tracker field, the sort is on the category ID as text. Example:

11

110

12

13

14

141

15

The sorting should be just as it is on the 'browse categories' page - as a tree. The listing is alphabetical at each level, and all child items are listed before the next item at the current level.

### Priority

25

### Demonstrate Bug (Tiki 19+)
