Description

live.t.o: Add a new param to plugin BigBlueButton so that only recordings longer than X minutes are displayed

See it reproduced in <https://tiki.org/Live> > BBB current recordings (once logged in)

There are 140+ recordings, and most of them are kind of demo trials, of less than 10 minutes. Last year 2013 I spent like 1h reviewing the short meetings and deleting them from the recordings list, since they pollute the list. But every month there are new of those recordings, demo, tests, support requests in the wrong place, etc. and it's tedious to do this manual work, which might happen also in other sites using Tiki + BBB.

A simple workaround would be to add an extra param to the PluginBigBlueButton so that only recordings longer than X minutes (default to 10' ?) are displayed in the recordings list.
