Description

`#comment-container ol, #comment-container-below ol` has property: list-style: none

Why I cannot have ordered lists numbers in comments ? 🤓

Solution

Fixed in commit r53983. Remove legacy rule for no list-style on comment lists; Bootstrap rule is now used, and has a more limited scope so comments can contain lists with normal styles. Thanks to luci for reporting.

Before the rule was added, the comments themselves were numbered, which was strange. But it's true the rule should only apply to that initial instance, not to lists inside of comments. I'll narrow the scope.

Update: I see now our legacy rule can be removed, since Bootstrap has the same rule for ol.media-list, which we use now for comments.

luciash d' being 18 Feb 15 13:08 GMT-0000

Thanks!
