Description
If use Bootstrap menu is set to "y", the menu is vertical instead of horizontal even if the type is set to horiz. If "bootstrap=y" is not explicitly set (left empty, since it's the default), then type=horiz has the expected effect.

Solution
Hi Gary.

Please follow comment box for info.

Thanks

Workaround
Leave "Use Bootstrap menus" empty rather than entering "y". Not a problem really, but assigning menus is a basic task and should be as smooth as possible.

Hi All,

I have found the issue and fixed it.

There is one additional condition missing which is neglecting the horizontal menu on case condition 'Y'. Now I have added that one and it's working well.

File details:
function.menu.php
line number: 116
switch ($params'bootstrap') {
case 'navbar':
return $smarty->fetch('bootstrap_menu_navbar.tpl');
break;
case 'y':
if($params'type' == "horiz"){
return $smarty->fetch('bootstrap_menu_navbar.tpl');
}
break;
default:
return $smarty->fetch('bootstrap_menu.tpl');
}

Thanks for the fix. But, as I messaged privately, there is now a problem with vertical menus - they revert to not either Bootstrap or Superfish when bootstrap=y is selected.

manivannans 10 Apr 15 12:37 GMT-0000

Hi Garry,

ohh I didn't notice the default menu issue when the 'bootstrap =y' is selected. Now I have fixed the issue and the working are now as follows

1. When we are leaving the 'Bootstrap menus' option is empty which is default by 'y' and 'type' is empty which default is 'vert' then the menus
will display as vertical.
2. When we are leaving the 'Bootstrap menus' option is empty which is default by 'y' and 'type' is 'vert' then the menus
will display as vertical.
3. When we are leaving the 'Bootstrap menus' option is empty which is default by 'y' and 'type' is 'horiz' then the menus
will display as horizontal.
4. When we are leaving the 'Bootstrap menus' option is 'y' and 'type' is 'horiz' then the menus
will display as horizontal.
5. When we are leaving the 'Bootstrap menus' option is 'y' and 'type' is 'vert' then the menus
will display as vertical.

Thanks
