Description

dev.t.o 14.x: only the last item in the multiple selection combo box is stored for this tracker item

See it reproduced here:

<https://dev.tiki.org/item5464?from=Structure>

Edited this item as user "xavi" (without admin rights, in case it matters), Selecting some other categories in the combo box for the field "Category" or the field "Version": => only the last category (or at least, only one from all the ones selected) is stored

Solution

r55395 hopefully fixes it by rolling back r54016

Fixed, thanks!
