Description

jquery validation displays the error message below the wrong field in 14.x if using pretty tracker

See it reproduced here:

<http://xavi-9794-5706.show.tikiwiki.org/tiki-index.php?page=HomePage>

u: admin

p: 12345

Set a negative number in the field which expects (and only allows) positive numbers, and the error message is shown below the field underneath (a dropdown box, not a numeric one). In other cases (not shown in this show instance), they can be shown further down, etc.
