

For those cases (such as LDAP in which username can be just a numeric ID of the user but RealName is the meaningful info/name for that user) where the tiki admin chose to display Realname instead of login where possible.

Setting, for instance, at : tiki-wizard\_admin.php?&stepNr=17&url=index.php (Set up User & Community features):

user\_show\_realnames : "Show user's real name instead of login (when possible)"

Solution

[r57429](#) (the fix was quicker than updating this tracker item ;) Hope i got the right thing!

---

Thanks jonnyb! Extended in [r57441](#) & [r57445](#) and backported to 14.x and 12.x. Pending ;-): [item5803](#) (I don't know who to fix that one myself, I'm afraid)
