Description

While navigating galleries in Finder View the URL does not change. The impact of this is selecting "Edit Gallery" will result in editing the gallery identified by the out-of-date URL, and not the currently view gallery. Easily missed, resulting in editing the wrong gallery.

Workaround

- 1) Switch to List Gallery view. Takes you back to the gallery identified by the out-of-date URL.
- 2) Navigate back to where you want to be
- 3) Edit the gallery
