Description

12.x - 15.x: Tracker: filter items is broken when radio button with labels set (0=No,1=Yes,2=Dunno).

No matches are found when there are some items which met the intended criteria.

~~It'll be reproduced in an attached intance in short.~~ Stay tuned! 😊

p: 12345

You will see the field TestRadio, with some values (0, 1 and 2; their labels, in fact)

Try to filter by that field:

http://xavi-9794-5810.show.tikiwiki.org/tiki-view_tracker.php?trackerId=1&status=o&sort_mode=f_asc&filterfield=8&filtervalue%5B1%5D=&filtervalue%5B2%5D=&filtervalue_other=&filtervalue%5B3%5D=5+%28high%29&filtervalue%5B8%5D=0%3DNo&filter=Filter#

Update:

the problem is also found (and still unsolved) at teh trackerfilter level. Sorry, I tried for one hour, but I couldn't get the right syntax to port this type of fix there also. :-/

To reproduce, see it here:

<http://xavi-9794-5810.show.tikiwiki.org/tiki-index.php?page=HomePage>

The issue is reproduced also for dropdown fields when labels are set, etc. See it reproduced with field "Priority" (Dropdown).

Reproduced also with "Dropdown with other" (field Location) in the tracker itself, but it works as expected through Plugin TrackerFilter.

Does work:

<http://xavi-9794-5810.show.tikiwiki.org/tiki-index.php?page=HomePage>

Doesn't work:

http://xavi-9794-5810.show.tikiwiki.org/tiki-view_tracker.php?trackerId=1&status=o&sort_mode=f_asc&filterfield=2&filtervalue%5B1%5D=&filtervalue%5B2%5D=0%3Droom+1.1+%2855+seats%29&filtervalue_other=&filtervalue%5B3%5D=5%3Dhighest&filtervalue%5B9%5D=y&filtervalue%5B10%5D%5B%5D=1&filter=Filter#

Multiselect seems to work well, as expected, in both tracker itself and plugin trackerfilter.

Solution

please check r57487

Thanks gezza. Confirmed it's fixed (& backported to 14.x in r57493, and to 12.x in r57494).

please check r57500 for dropdowns on the tracker list form

Confirmed the issue of dropdowns in tracker list form is fixed. Thanks. For the record: Only pending, equivalent issues at the trackerfilter plugin
