Description

item link displaying duplicated items frmo a category field

I'll see if I'm able to reproduce in a show instance

Product name "Oracle Database" is duplicated in the dropdown.

Reproduced also in the tracker itself (aside of plugins in wiki pages)

Solution

r58672 i hope

Fixed, thanks jonny! For the record, the item link field needs to be set to show "Show one random item for each label" for this use case.

Looks ok to me, only one "Oracle Database" there for me now...

By the way, if it's a trackerlist or trackerfilter plugin bug i think it should be flagged as that (i.e. not a general tracker bug), at least in the subject field?

I'm afraid this bug has nothing to do with those plugins. It can be reproduced also directly at the tracker level:
