Description

Unable to drag-drop preferences in perspective tab. I got this error in console :

```
jquery-migrate-1.4.0.js:23 JQMIGRATE: Migrate is installed with logging active, version 1.4.0
content.js:349 Uncaught TypeError: Cannot match against 'undefined' or 'null'.

Any more info on this? I have found you can only drop prefs into the top part of the perspective area, which i thought might be a css issue, but will check the error console too - thanks!
