I do not see that fail in 18.x - can you Jonny set a show instance pls?

Sure thing (had forgotten about this one, thanks ;)

Ok, done, it looks like the feedback is now fixed, but still there's no client-side validation for it happening, so 5/10, could try harder! 😃

Not sure if that means we should close this one?

Well it shows the error now or it warns user it could not be created in the ajax service so I would say close or rename the bug report?
