Description

I was researching a way to become more involved in Tiki that was not beyond my skill level. So Tiki Tester I feel would be a good way for me to give back to the community.

As I was digging into the Tikitester page, I found the links to the tiki test pages no longer are valid, please see:

<https://dev.tiki.org/Instructions%20for%20Tiki%20Testers>

And click on links to Tiki Test pages.

Thank you for taking a look at this, any further guidance would be appreciated.

Hi John, I think the page is severely outdated (that testing initiative was happening around Tiki 4.x?) and sadly the information and the links provided there are no more relevant. You are free to test any profiles and report back here in the bug tracker though anyway if you find any issues. Thanks!

John Morris 10 Aug 17 15:22 GMT-0000

Thanks Luci.

Using and testing is the best way then after all, and simply reporting back here, that's fine!

So what do we do with the outdated page?

Thanks
