Description
On https://doc.tiki.org/Documentation#contentdochome-3 you can see under the "The latest Tiki news" that there are links to latest articles on tiki.org but each article title is repeated there 3 times - each with slightly different link, for example:

📋

    https://tiki.org/tiki-articles_rss.php/article447-Tiki-17-0-released
    https://tiki.org/tiki-articles_rss.php/img/smiles/article447-Tiki-17-0-released
    https://tiki.org/article447-Tiki-17-0-released

Only the third one is correct and should be there. Please fix if you know how ;)

Thanks,
luci

Update 9/10/2018:
This is still there and it is not helping us with automatisation that are (could) help us to spread our news on different social network tools.

https://tiki.org/Community show 8 feeds for The opening of Tiki Online Open Hours

Gary mentioned that a new feed is create on each editing. Seems related.

Update 11/10/2018:
I tried to understand better and check setup different websites:

1. On my local, debugger on, I can't reproduce
2. On my own website; https://bsfez.com/playground
    1. First check I have a single entry for each article in the feed module
    2. Second check (can't say if it is hours later or days laters) I have 2 entry for each article. It is really unlikely I edited each one once and only once so it moderate the editing option (each edit add an entry).

3. On tiki.org, they were some edit yesterday (by Luci) and now we have 4 entry for the last article https://tiki.org/Community
