Description

After problem with show instance closed and set up new for user Nayana

New bug report with working show instance: <https://dev.tiki.org/item6550>

After setting Mail Notifications to various users for types like:

blog_comment_changes

blog_post

wiki_page_changes

I get only notifications for wiki changes.

Using the option to output to debug file..

Tiki 17.1 php 7.0, nginx ..
