**Description**
When using the Freetag module, users must have tiki_p_admin permission to remove a tag from an object. This is incorrect, it should require tiki_p_unassign_freetags permission.

Line 9 of the freetag_list.tpl file should be changed from:

```{if isset($deleteTag) and $tiki_p_admin eq 'y'} ...```

...to...

```{if isset($deleteTag) and $tiki_p_unassign_freetags eq 'y'} ...```  

**Solution**
Fixed in TRUNK with 65770. Backported to 18.x
