- ● TRIM: make instance fails with PHP Fatal error

Description

It worked before but...

Using TRIM with make commands does not work anymore here:

```
[root@vm5163 trim]# make instance PHP Parse error: syntax error, unexpected '.', expecting ',' or ';' in /var/local/trim/src/libs/audit/Checksum.php on line 64 Parse error: syntax error, unexpected '.', expecting ',' or ';' in /var/local/trim/src/libs/audit/Checksum.php on line 64 make: *** [instance] Error 255 [root@vm5163 trim]# php -v PHP 5.5.38 (cli) (built: Jul 21 2016 12:51:12) Copyright (c) 1997-2015 The PHP Group Zend Engine v2.5.0, Copyright (c) 1998-2015 Zend Technologies

@luciash can you give it a go with r67175 ?

Thanks! Got further now but there is another one:

```
[root@vm5163 trim]# make instance PHP Parse error: syntax error, unexpected '.', expecting ')' in
/var/local/trim/src/libs/trim/Backup.php on line 274 Parse error: syntax error, unexpected '.',
expecting ')' in /var/local/trim/src/libs/trim/Backup.php on line 274 make: *** [instance] Error 255
```

Can you try one more time? Are you sure your PHP version is OK?

luciash d' being ☐ 11 Oct 18 08:06 GMT-0000

As seen in the description my PHP version at the time of this report was made was PHP 5.5.38 (cli)

I think this has lead to discussion on AvanTech if we should rise the requirements for TRIM to 5.6 as 5.5 was originally described as sufficient to run TRIM.

I can try again today but not sure if my PHP version is still the same...

Still an issue:

```
# make instance Answer the following to add a new TRIM instance. Connection type (local,
ftp, ssh) : local Web URL [http://localhost] : https://demo.luciash.eu/foo/ Instance name
