Description
At https://tiki.org/forumthread70022-mpdf-Generates-Black-PDF-docs at the bottom it shows:
Page: 1/2 Next

The link to see the second page is on the Next string.
When you click it you can see the second page… But you can’t return back as there is no more pagination.

UPDATE 22/01/2019: Not fixed.
When you click it you can see the second page… But you can’t return back as there is no more pagination links.

UPDATE 22/01/2019: Another exemple at https://tiki.org/forumthread71032-Social-Login-unable-to-auto-create-user there are 5 pages and you have to load them all one after the other if you want to look at page 5. (no direct link for the last page)
