### Related-to

- ⚙ Setting fields order on Tracker plugin (GUI)

### Description

While dealing with tracker data, the preference "Sortable Chosen Multi-selects" seems to not work at all. The jquery seems fine, in that I can drag and drop items, but when I go to save the tracker, it ignores the order in which the fields were sorted in.

I have noticed this predominately while editing a tracker item.

Drsassafras, can you please demonstrate it in a show instance? Thanks!

R
