Description
While selecting the status when editing a tracker item in the modal (feature Chosen enabled), the icons do not display properly.

Expected behaviour: the same status icons used everywhere else should show there, instead of coloured square boxes.

See attached image for details.

Just tried in trunk, and does not seem to be fixed. Maybe it's not merged yet?

Yeah, not auto-merged yet. I tested in 19.x and it seemed to be fine there. Not for the legacy edit though (see the related task).
