Related-to
    - 🟢 PluginConvene UI doesn't display X number cells when casting choices after user added X number of new dates
    - ⊗ PluginConvene: tell user chosen date and time once it is chosen

Description
    I can't set the time on editing the plugin convene.

    test

Update: The sorting is also broken (it used to sort date by time). The time insertion is very capricious mostly not working with the slider and only possible editing manually after several attempts. See: https://tiki.org/Roundtable-Meeting-2019-01

Update (20/01/18): The sliders are working but misplaced.

Looks like that page is fine now, is there a test somewhere? Is this still a problem?
