Description
DESCRIPTION: We have deployed a platform with CAS JASIG, TIKIWIKI and JOOMLA. We have an issue with users that are already logged in JOOMLA and try to access TIKI.

ISSUE: CAS Autologin feature fails to complete.
SINCE WHEN: This issue has been at least since version 14.x
PROCEDURE THAT FAILS: If i try to access a restricted resource without explicitly login before.
1. Tiki redirects to CAS SERVER (NORMAL CASE)
2. CAS SERVER redirects back to Tiki (NORMAL CASE)
3. Tiki redirects back to TIKI main page (NOT NORMAL)

NOTE: The Autologin functions well only when we explicitly access _tiki-login.php_

Importance
10 high

Easy to solve?
