### Description

The name 'Tracker Tabular' does not mean anything to non-IT people.  
I still can't figure out why it is called this, it is confusing.

If it is "an advanced import/export feature for Trackers" than call it that:  
Tracker Import-Export

In all seriousness, the name is not appropriate, as it has no meaning (maybe to programmers it means something, but not to non-programmers).

Can this be renamed to Tracker Import-Export for Tiki 21?

Thanks,  
Mike

And beyond changing in the application, please rename on doc.tiki.org and maintain legacy links.
