Related-to

- ✖ Plugin List GUI not saving

Description

I have used the Plugin Edit helper icon on the List plugin on the page Tiki20 to edit some labels (I wanted to add "Status" to the status column label and to change "Volunteered" to "Volunteer to solve") and as it uses the GUI I edited them in the fields named "Label" and then clicked Save but the changes I made were not saved. Instead some not relevant change is indicated in the page history.

As you can see in the history here:

<https://dev.tiki.org/tiki-pagehistory.php?page=Tiki20&newver=41&oldver=40>
