Description
Installer allows to set language for the tiki site admin in the first screen of tiki-install.php. This used to work for years. I tested in 20.x and 21.x and it doesn't change lang of the interface. Tested with Catalan and Spanish, in case it matters. No change, installer continues in step 2 in English.

Solution
Not sure who fixed it but it works for me on 21.0 beta

---

awesome, fix confirmed, thks for reporting, jonny!

Comments

Xavier de Pedro 23 Nov 19 18:48 GMT-0000

added tag as a release blocker, since imho, this deserves it (it would be such an awful impression for non-English users at the first step attempting to install tiki, that we might have a proper look at it at some point before releasing the new LTS which Tiki21 will be)

Jonny Bradley 23 Nov 19 19:38 GMT-0000

I totally agree, almost the definition of a blocker. Will look in to it (someone revamped it recently ;)

Benoit Roy 27 Nov 19 03:46 GMT-0000

I may have fix this.
Latest 18x also had this issue.
