- PluginConvene UI doesn't allow editing date choices for a user anymore
- Range field to set the hour on the plugin Convene is misplaced

Description
PluginConvene UI doesn't display X number cells when casting choices after user added X number of new dates. Reproduced here:
I added two new date options, and then, when I attempted to edit my choices through Convene UI, I was not able to add all my choices, 2 cells were missing. In fact, they were missing also at display time. Odd.
Gary reported some similar oddity in that page also:
