Description

User wizard (accessible via `/tiki-wizard_user.php`) needs some love to get harmonized consistent look and feel (UX) with the Admin Wizard (`tiki-wizard_admin.php`).

It has some old ugly icons (they should be replaced by FontAwesome icons) and broken GIF image references when you go through the steps of the wizard.

Please have a look at TPL files of `tiki-wizard_admin.php` for example how it should be done and harmonize.
