User Wizard needs to be converted to Bootstrap4

Description
User wizard (accessible via /tiki-wizard_user.php) needs some love to get harmonized consistent look and feel (UX) with the Admin Wizard (+tiki-wizard_admin.php+-).

It has some old ugly icons (they should be replaced by FontAwesome icons) and broken GIF image references when you go through the steps of the wizard.

Please have a look at TPL files of tiki-wizard_admin.php for example how it should be done and harmonize.
