Related-to
- ⊗ File Gallery: fatal error when trying to choose from uploaded images using the browse option

Description
It is not possible anymore to navigate (browse gallery) when uploading an image in this tracker. (tested on Safari and Chrome)

It take a lot of time to display the galleries (at first I though I was stuck) then once the galleries are displayed when you choose one you got an error:

⧉

Fatal error: Uncaught --> Smarty: Not matching {capture}{/capture} in 'layout_view.tpl' <-- thrown in /var/www/virtual/dev.tiki.org/html/vendor_bundled/vendor/smarty/smarty/libs/sysplugins/smarty_internal_runtime_capture.php on line 139

To reproduce go to

https://dev.tiki.org/tiki-list_file_gallery.php?galleryId=13?filegals_manager=area_5e4e4e6e2e81e directly.

Solution

Here's one:

I guess you didn't read the bug description. 😃
You upload your image in the main/top gallery.

The bug appear when you try to select a different gallery to upload the image.
Step to reproduce:
Click the upload image icon
Click "Browse gallery" or "List gallery"
Kaboom 😃

Guess i must be doing something wrong (right) still... i clicked the upload icon, clicked "browse

gallery", navigated to a different gallery, clicked upload again, uploaded this: , all

good...
Sorry

=> Comments

Ok, i think **@Roberto Kirschbaum** and i have finally worked it out - and hopefully it's fixed in 0b883d8b and we updated dev, looks good to us! 😎

Sorry, Bernard, i watched your video and read the description, but didn't get that it was happening when you *change* gallery... retesting

Bernard Sfez / Tiki Specialist 19 Feb 20 21:20 GMT-0000

Well... As you can see per my video it doesn't work for me:
https://share.vidyard.com/watch/i6jyxVX4hnyF4ZRBLTeJTP?
May be this is specific to the bug images gallery ?

Bernard Sfez / Tiki Specialist 20 Feb 20 08:35 GMT-0000

Retested today on my Mac 10.14.6 (18G95) on Safari, Chrome and Firefox.
I also retested on my Windows 10, Chrome and got the same error on all:

Fatal error: Uncaught --> Smarty: Not matching {capture}{/capture} in 'layout_view.tpl' <-- thrown in /var/www/virtual/dev.tiki.org/html/vendor_bundled/vendor/smarty/smarty/libs/sysplugins/smarty_internal_runtime_capture.php on line 139

What do you have I don't ?

La mustache ??

luciash d' being ⬚ 20 Feb 20 09:23 GMT-0000

The video does not show the error to me. Just you typing text... ?

luciash d' being ⬚ 20 Feb 20 09:30 GMT-0000

I could reproduce this here. Just go to
https://dev.tiki.org/tiki-list_file_gallery.php?galleryId=13?filegals_manager=area_5e4e4e6e2e81e
directly if you cannot reproduce by clicking the steps one by one...

Bernard Sfez / Tiki Specialist 20 Feb 20 12:55 GMT-0000

Thank you Luci.
Sorry for the video, I didn't paid attention I select a tab for the video screen shot and not all my
screen.
Good you see it too. 😬

Jonny Bradley 20 Feb 20 15:45 GMT-0000

Got it, i was using the gallery "tree" on the left to navigate and that works fine, but clicking on the
actual gallery name in the list casques the error, and as Luci's url pasted above we can see there
are two question marks in it (the second one should be an ampersand).

Details are important, shame this took two days to work out! 😁

Bernard Sfez / Tiki Specialist 21 Feb 20 06:37 GMT-0000

Sorry I goofed with the video as it didn't catch the IMPORTANT thing.

Roberto Kirschbaum 24 Feb 20 10:41 GMT-0000

Hi all,
Is this fixed yet? Since this is marked as Release Blocker, should I postpone RC1, originally planned for

today? (BTW are there any other reasons why we shouldn't release RC1 yet?)

thanks!

Roberto Kirschbaum 24 Feb 20 11:41 GMT-0000

Hmmm Thanks for this Jonny: http://sourceforge.net/p/tikiwiki/code/75643

Roberto Kirschbaum 24 Feb 20 18:24 GMT-0000

@Jonny, I cleared dev.tiki.org's cache, but still the same problem (at least fixed the filesystem perms)

Also I verified table tiki_sefurl_regex_out and here is the row we suspected might be missing (so it's not missing):

tiki-list_file_gallery.php\?galleryId=(\d+)
file$1
file
n
feature_file_galleries
NULL

0

Bernard Sfez / Tiki Specialist 10 Mar 20 07:34 GMT-0000

Fixed, thank you !
