### Description

After editing an item in this tracker, i'm not enable anymore to save a tracker item and a comment (Save and Comment) or to save and go back to the list (Save Returning to Item List) using the buttons in the dev Wish List using Safari on OSX. (may mean doesn't work on Iphone too)

Work on Chrome.

### Solution

~~Possibly fixed (same missing div thing)~~ not fixed... testing it here now in Safari

Also testing

---

It only happens with the legacy edit mode enabled, and only in one (minor) browser, so not fixing - but that doesn't stop someone else having a go ;)

### Workaround

Was temporary or was solved
