- 🚫 Console command console.php file:check throws a notice about storage location

Description
When I run php console.php files:check it shows

Found 1 Issues, details below:
The following files are unknown, exists in the folder, but not in the database

+------+--------+
| Name | Path |

+------+--------+
| index.php | ../mypath |

+------+--------+

It shouldn't see it as an issue (may prevent monitoring automatisation).
