### Description

In /templates/modules/mod-login\_box.tpl there are two (?) broken translations, tr in curly braces not closed & not opened, thus creating a HUGE text that gets pumped into tra, which contains mostly Tiki source code and of course lots and lots of line breaks and tabs...

```
{elseif $prefs.auth_method eq 'saml' && $showloginboxes neq 'y'} <b><a class="linkmodule"
href="tiki-login.php?auth=saml">{tr} {if $prefs.saml_option_login_link_text eq ""} Log in
through SAML2 IdP {else} {$prefs.saml_option_login_link_text} {/if} {/tr}</a></b> {if
$prefs.saml_options_skip_admin eq 'y'} <br /><a class="linkmodule" href="tiki-
login_scr.php?user=admin">{tr}Log in as admin{/tr}</a> {/if} {else}
```

I set the importance to a higher value, because it is the user login that gets affected... Also, it affects ALL languages, including English...
