### Description

We are lacking some languages spoken by millions. I'm not asking for translations, but we don't even have them as languages to correctly flag user texts for i18n, they are missing in /lang/langmapping.php.

- Dari (Afghanistan)
- Pashto (Afghanistan) <https://en.wikipedia.org/wiki/Afghanistan#Languages>
- Persian (Iran). We do have Farsi, but to my understanding the official wording is Persian, an Farsi is rather the name used outside Iran (endonym).  
<https://en.wikipedia.org/wiki/Iran#Languages> and  
[https://en.wikipedia.org/wiki/Persian\\_language](https://en.wikipedia.org/wiki/Persian_language)

There is an ISO transliteration of Persian into latin alphabet ISO 233-3.

Also, traditional Chinese missing, used in Taiwan, Hong Kong and Macau.

Just saw that we do have traditional chinese in langmapping.php, it was just missing in the german language.php. But the other three are missing in langmapping.php.
