Easier module management for Tiki admins

Status
📍 Closed

Subject
Easier module management for Tiki admins

Version
1.9.x

Category
• Feature request

Description
These settings:
Display modules to all groups always:
Hide anonymous-only modules from registered users:
here: tiki-admin.php?page=general

And these ones:
Show Module Controls
Users can Configure Modules
Users can Shade Modules
here: tiki-admin.php?page=features

Should be added here:
tiki-admin_modules.php
Or a new admin tab should be created:
tiki-admin.php?page=modules

IMHO, it is OK for options/settings to be in more than one admin panel, if relevant to both.

Solution
Started on BRANCH-1-9

Importance
8
