### Description

This setting:  
User Messages  
here: <tiki-admin.php?page=features>

And these ones:

Users can opt-out internal messages:  
Users accept internal messages by default:  
Maximum mailbox size (messages, 0=unlimited):  
Maximum mail archive size (messages, 0=unlimited):  
Maximum sent box size (messages, 0=unlimited):  
here: <tiki-admin.php?page=login>

Should be added to a new admin tab "Inter-user message":  
[tiki-admin.php?page=inter-user\\_message](tiki-admin.php?page=inter-user_message)

IMHO, it is OK for options/settings to be in more than one admin panel, if relevant to both.

### Solution

Done.

Moved to its own page.

IMHO feature switch should stay on Features page...

If enabled the config on page tiki-admin.php?page=messages applies.
