Description

I found the other day a chat that looks like is no more on development and is used to chat over irc (nice way to chat) is named Eteria IRC and u can find it at sourceforge (<http://eirc.sourceforge.net/>)

Might this be usefull to change the chat (that in my opinion) that does not work right.

I post this cuz the few times i used the tiki's chat module gave me a few problems with cpu usage and db's saturation

Hope u find this usefull for new vers for the tiki's chat module.

Solution

No release since 2005: <https://sourceforge.net/projects/eirc/files/>
