Description
1- Deal with tiki-gmap_usermap.php and templates/tiki-gmap_usermap.tpl in a way that takes into account upgraders via FTP

2- Review any gmap-specific wishes to see if anything is still useful, and thus, move to general map category and for the rest, close with "won't fix" or "outdated"

3- Review all instances of gmap and googlemap in the code base
