Related-to

- ● The canonical domain of next.tiki.org should be tiki.org so that search index results feed tiki.org

Description

https://tiki.org/tiki-view_forum_thread.php?comments_parentId=50396

offers a canonical of

<https://tiki.org/forumthread50396>

Good.

Now, it also has two links:

https://tiki.org/tiki-view_forum_thread.php?comments_parentId=50396&display=print

https://tiki.org/tiki-view_forum_thread.php?comments_parentId=50396&display=print_all

The print versions should have the canonical as well.
