Related-to
   • ⊗ Plugin List default parameter for tracker field type Numeric not effective

Description
   Tracker field numeric 0 value is interpreted by the plugin list as No value for 'tracker_field_xxx'

   In a tracker I have a numeric field that contain the value 0 and it display ok in the tracker.

   I set a plugin List the field and it is returned like the field is empty.

   Retested today on Tiki19:
