RoadMap
If you plan to do something major, either a new feature or revamp, please indicate it on the development page of the appropriate version, with your name. If you have a suggestion but don't have the time / skills, please add to the wishlist.

Release pages

Major trends

- Increased use and melding with Zend Framework, Smarty jQuery and Bootstrap
  - Smarty 3.0 done in Tiki8
  - Smarty 3.1 done in Tiki9
- Increased use of new standards and technologies. Ex.: HTML5 and CSS3
- Modernizing of the code to take advantage of improvements to PHP and JavaScript
- Tighter integration with other apps of https://wikisuite.org/
- Every version, we try to clean stuff from Endangered Features
