

Check if the update would cause conflicts

```
svn merge --dry-run -r BASE:HEAD .
```

- <http://stackoverflow.com/questions/12964057/svn-preview-update-showing-conflicts-but-update-doesnt-result-in-conflict>
- <http://stackoverflow.com/questions/182945/how-to-see-what-will-be-updated-from-repository-before-is-suing-svn-update-comm/182960>

In **TRIM**, as of 2017-05-28, this is used:

```
svn merge --dry-run --revision BASE:HEAD . --allow-mixed-revisions
```
