

Merge categories on dev.tiki.org

This is a brainstorming for later this year...

This is somewhat related to [Batch actions on the bug tracker](#)

Goal: reduce number of categories and make it easier for people to categorize without having to read documentation of be familiar with Tiki.

Dogfood

- [Error moving tracker items from category X to Y](#)

Non-feature sections

- Merge anything [relevant](#) to a better category
 - [Technical Area -> CSS to Features » Theme: Look & feel, Styles, CSS, Theme Control Center](#)
 - [Technical Area -> JavaScript to Top :: Features :: jQuery and JavaScript](#)
- Merge [Ticket type](#), [Ticket category](#) all while deleting anything no longer relevant
- Merge [Ticket status](#), [Resolution status](#) and system status (open, pending, closed)
- Merge the workaround content in the Solution, with a note to put workarounds there.
- Implement [Ease Importance Priority](#) system.
 - Started, would need to add calculations to get a priority
