

Move from 30 minute fixes to ease filter

Goal of this page: So we want to move all wishes from [30 minutes fixes](#) to have an ease score of 8 on the [Ease Importance Priority](#) scale. This will be used later also to move wishes from "Resolution status" (field 56 drop down) to "Ticket status" (field 93 category) so that we use categories more going forward and perhaps use goodies like [Category Transitions](#) and [watches](#)

- Bug or need of re-index? Some of the items below are not showing "less than 30 minutes" in the category column
- Missing feature or misconfig?: When I use PluginListExecute with same data as plugin, I lose my nice table with all the data. This data is useful to pick on which wishes to execute an action
- Bug or miscondig? step action=tracker_item_modify field=priority value=8 is not working

List

Title	Priority	Ease	Importance	Category
Please Note: Dogfood notice Enough already please	5	0	1 low	
utf-8 issue when importing tracker items (only first character)	5	0	1 low
