RoadMap

If you plan to do something major, either a new feature or revamp, please indicate it on the development page of the appropriate version, with your name. If you have a suggestion but don't have the time / skills, please add to the wishlist.

Release pages

- Planned/wished major features are typically indicated on the page about that version. Ex.: Tiki27. If it's not done in time, it's typically moved to the next version
