

This page serves as ideas brainstorming hub for [Social Networking](#)

What should be easily possible to do with SN in Tiki ?

- Use Tiki to build a SN Community website
- Use Tiki to connect with other SN websites and services
- Job board
- Dating site
- Hospitality exchange
- Car Pooling
- Exchange market of offers and demands (objects, and knowledge; with no money):  
<http://intercanvis.net>
- Connection between Tiki Forum and Social Network (Post new topics on wall with backlink, Inject owner comment/twetts into tiki forum)

Proposal for Social Network integration Workflow

- Admin: Assign Social Network Permissions to Groups/Users.
- Admin: Set site wide announcemnt preferences (eg. post new articles, post new forum topic @facebook only and comments @twitter.
- Admin can restrict available Social Networks.
  
- User: Can set/enter several Social Networking accounts from within MySocialNetworking->SocialNetworkAccountPrefs Tab.
- User: Can define which submissions should be "autopromoted" via Social Networking from within MySocialNetworking->SocialNetworkChannels Tab.
- When Submitting content, Portions can be marked as Social Network "Teaser". Alternetively something like [Tweets from @](#) some twitter msg. max. 140 chars {\twitter} could be used.
- Additional summary/teaser field for eg. facebook & blog entries (or modified article header/wiki description) which may exceeds 140 chars.
- Checkboxes/dropdown selector @ content submission form to define which Social networks should be used to promote/announce.
- Shoutbox get an additional checkbox "shout to twitter too"
- Shoutbox could also display the twitter reply for users-/site-twitter account.

What SN services should Tiki support (and how) ?

- Facebook - use FB API, FB application ?
- <http://openmicroblogging.org/protocol/0.1/>
- identi.ca
- LinkedIn
- Magnolia - extend the User Bookmarks feature to synchronize bookmarks ?
- OAuth support
- Twitter

What do others have ?
