## General information

[ - ]

Do not report bugs in wiki format on this page, or on the [Dev Mailing List](#). Please [log the issue](#) and tag as 19.x.

Tiki 19.0 was released in November 2018.

Tiki 19 is a Standard Term Support (STS) version and will be supported until [Tiki 20.1](#) is released, as per [the Tiki lifecycle policy](#). Minimum requirement is PHP 7.1 It is possible (50% chance) that Tiki20 or Tiki21LTS will require PHP 7.2, so don't upgrade to Tiki 19 unless you can get PHP 7.2, which may be required for Tiki20 (And support for Tiki 19.x ends once Tiki 20.1 has been released).

## Issues that won't be solved in the short term

- show.tiki.org currently runs on PHP 5.6. No trunk or tiki19 instance can be created. We need volunteers and a strategy for handling this.

## Tiki test sites

We have a daily test upgrade of most of our \*.tiki.org sites. So anyone can check anytime how stable trunk <https://tiki.org/Pre-Dogfood-Server>

Tiki.org website we will switch after alpha or beta release (red = not yet. green = switched). Status is free but more like: switched, broken, fixes required, work ok.

## Main release schedule

## Regressions

- [Layout of multiple checkboxes with labels broken](#) (reported 2018-08-21)
- [No contrast in dropdown menus in header with Business theme](#) (confirmed 2018-07-16)
  - Color contrast problems are being worked through in the themes. Issues related to menus may have

to wait until the menu revamp is farther along.

- No contrast between tablesorter filter field and containing row background (tiki-listpages.php) (reported 2018-07-09)
- [Plugin edition form is horizontally squeezed](#) (reported 2018-07-16, almost entirely solved now)

## Blockers

*Areas that make testing anything for backports pretty much impossible currently*

- Calendar Item editing
- Toolbars admin
- Tracker Tabular Format editing

## Tiki 19.1

### Dogfood Marathon

Developers are invited to join a [dogfood](#) fixing marathon (about 2 hours) on Thursday, January 24th.

Ideally it should be held before the [Tiki Online Open Hours](#) session (15UTC) and choosing an early hour will help Gary from Japan (our main Bootstrap4 integrator in Tiki19) to be with us. But it can also be on it and part of our initiative to show the Community activities and encourage participation.
