

## Social Networking

[Tikifest Workspace and Social Networking](#) **Friday July 31th to Sunday August 9th (10 days long)** in Barcelona, SPAIN.

### About

---

While Tiki has a "friendship" feature, it is so basic, that it is practically "missing". What is missing is proper Social Networking with "transactions" between community members (Ex.: [hospitality exchange network](#), carpooling, dating service, etc) with reputation system. Something like LinkedIn, Facebook or the [www.phpbeer.com](http://www.phpbeer.com) project.

### Who

- Yan Levasseur
- Marc Laporte
- luci
- Shawn Adler
- Alexander 'amette' Mette

### What

Please see:

[http://en.wikipedia.org/wiki/Social\\_networking](http://en.wikipedia.org/wiki/Social_networking)

### Examples of Use Cases

- Use Tiki to build a SN Community website
- Use Tiki to connect with other SN websites and services
- Job board
- Dating site
- Hospitality exchange
- Car Pooling
- Business Directory - Offer Personal Services (programming, consulting, etc) & also with the ability to market products with links to other shopping carts and websites where visitors can click through and buy from this vendor online.
- Exchange market of offers and demands (objects, and knowledge; with no money):

**please, feel free to brainstorm your Ideas and Wishes what Tiki should make possible with SN here:**

### Current features in Tiki

- some My Tiki preferences can be considered as SN related
- [Inter-User Messages](#)
- [Friendship Network](#)
- some wiki plugin(s ?) to share content on various Social Networks via Sharethis!

### Missing in Tiki

- "transactions" between users and a rating system of how each transaction went.
  - Maybe reuse/refactor [Mod CC](#), which records transactions between users indeed?.
- "connectors" - easy possibility to connect with other social networking web sites, apps and services

## How To Implement It

- Use the Trackers feature to extend a user SN information and Pretty Trackers Smarty tpls or wiki pages templates to display it nicely on the site
- Extend current Tiki features to support SN connectors, e.g.
  - My Tiki (could serve as Profile Dashboard)
  - User Bookmarks (could connect and synchronize e.g. with Magnolia)
  - ...
- Use Profiles to Install pre-configured SN ready Tiki
- ...
