

## Slideshow

There are different sorts of slideshows

- Image slideshows like the [Infinite\\_carousel](#) or the [S5](#) slideshow from the file galleries with neat [ColorBox](#) popup windows.  
=> did you know, that you can watch YouTube videos in a [ColorBox](#) and that you can show wiki pages in it aswell?  
do not forget the [PluginSlider](#)
- PowerPoint-type presentation from a wiki page with the feature 'Slideshow'  
Slideshows can be done either from Headlinesections out of single wiki pages or from wiki structures
- There is a new tool appeared in the cloud, which is called [Prezi](#) and which is aswell stunning cool as non-free Flash based proprietary software, that we thought to find and implement a similar tool.  
with Prezi you can setup a non-slide based presentation on a literally infinite canvas. You can zoom in and out and twist and turn along arbitrary paths and views.  
Torsten made a still ongoing research for possible **FOSS** alternatives and tried a few of the most promising tools.  
follow the research and a later coming report here: [Prezitations](#)

<http://tech.slashdot.org/story/12/04/06/0048212/animated-presentations-using-svg>

~~This page should be merged with [S5](#) & [Prezitations](#)~~

~~-&gt; I made a structure - is too complex for one page --ToF~~

- ~~• make a structure for Slideshows done~~
- ~~• make a category for slideshows already existed~~
- ~~• make a perspective for working on the pages (2 column!) done~~
- ~~• apply perspective module left top to 0; 2 done~~
- ~~• apply modules to either 0; 1 or 0;2 or 0 or 1 or 2 done~~
- ~~• ask Devs for a "module not in perspective" preference done~~
- ~~• apply magic module menu for the structure left top under switch perspective and limit to P2 done~~
- ~~• put content of e-mail onto a comparing page done -&gt; [Prezitations](#)~~
- work on Slideshow featurepage - sort content and make neat page layout
- make feature request / wishlist tracker especially for slideshows and prezitations  
consider the existing ones (maybe just add a simple survey?)
- explain the difference between both sorts of slideshows
- compare the features and the tech base of each and report about the research
- ...

Open and&nbsp;Pending
