### Description

It would be nice if there was the ability to have links to attachments easier than having to remember the file name from the attachments screen. It would be nice to get a list of all attachments on the WIKI edit screen and have the ability to click on the attachments to bring in the WIKI markup for the attachment link.

## Comments

Bernard Sfez / Tiki Specialist 19 Oct 21 10:48 GMT-0000

As per Tiki23 it is easy and possible to attach file without remembering id, just using the user interface.
